St. Louis (IL-Section)	6.8%	5.9%	0.9
Illinois Statewide	6.8%	6.0%	0.8

* Data subject to revision.

CHICAGO—All metropolitan areas in Illinois experienced over the year unemployment rate increases for the second consecutive month, according to preliminary data released today by the U.S. Bureau of Labor Statistics (BLS) and the Illinois Department of Employment Security (IDES).

“Unemployment rates increased in more than half of the metro areas even though they experienced job growth,” said IDES Director Jeff Mays. “The increase in the unemployment rate was largely due to more people entering the labor force”

Illinois businesses added jobs in just eight metros, in which the largest increases were seen in: Lake-Kenosha (+2.5 percent, +9,900), Rockford (+2.4 percent, +3,600), and Elgin (+2.3, +5,600). Total nonfarm jobs in the Chicago-Naperville-Arlington Heights Metro Division increased (+1.8 percent or +65,500). Illinois businesses lost jobs in six metro areas including Bloomington (-2.3 percent, -2,200), Danville (-0.7 percent, -200), and the Quad Cities (-0.7 percent, -1,200). The industry sectors recording job growth in the majority of metros were: Education and Health Services (13 of 14), Leisure and Hospitality (11 of 14), Retail (10 of 14), Government (10 of 14), Mining and Construction (nine of 14),

Transportation, Warehousing, and Utilities (nine of 14), Professional and Business Services (nine of 14), and Other Services (eight of 14).

Not seasonally adjusted data compares March 2016 with March 2015. The not seasonally adjusted Illinois rate was 6.8 percent in March 2016 and stood at 12.2 percent at its peak in this economic cycle in January 2010. Nationally, the not seasonally adjusted unemployment rate was 5.1 percent in March 2016 and 10.6 percent in January 2010 at its peak. The unemployment rate identifies those who are out of work and looking for work, and is not tied to collecting unemployment insurance benefits.

Total Nonfarm Jobs (Not Seasonally Adjusted) – March 2016

Metropolitan Area	March 2016*	March 2015**	Over-the-Year Change
Bloomington MSA	93,200	95,400	-2,200
Carbondale-Marion MSA	56,900	57,000	-100

Wayne County	9.5%	6.9%	2.6

South Central Illinois Highlights

Unemployment increased throughout South Central Illinois when compared to one year ago. Seasonal layoffs affected the labor market conditions in the first quarter of 2016. The data is not seasonally adjusted.

Over the year, employment advances were reported in Retail Trade and Health Services in South Central Illinois. Employment in Transportation continued to increase. Payroll gains also occurred in Manufacturing and Professional-Business Services. Seasonal employment expansions occurred in Construction and Leisure-Hospitality. Mining and Government employment steadily declined during the past year.

Employment opportunities were advertised in Transportation, Health Care, and Sales in early spring of 2016. Job openings also were reported in Office and Administrative Support, Management, Food Preparation, and Production occupations. Workers were needed in Computer Services, Engineering, and Installation, Maintenance, and Repair.

The unemployment rate identifies those who are out of work and seeking employment. A person who exhausts benefits, or is ineligible, still will be reflected in the unemployment rate if they actively seek work.

Note:

- Monthly 2015 unemployment rates and total non-farm jobs for Illinois metro areas were revised in February and March 2016, as required by the U.S. Dept. of Labor, Bureau of Labor Statistics (BLS). Comments and tables distributed for prior metro area news releases should be discarded as any records or historical analysis previously cited may no longer be valid.
